

CNF – National Confederation of Financial Institutions

The National Confederation of Financial Institutions coordinates the political and institutional engagement of the entities representing the different segments of the financial market (such as real estate credit, leasing, securities brokers and others). It represents the financial industry as a whole before society and the authorities. It is also at this forum that the different segments of the world of finance dovetail their interests and debate issues in common.

The CNF consists of the Brazilian Commercial Banks Association (ABBC), the Brazilian Association of Real Estate Credit and Savings Entities (ABECIP), the Brazilian Association of Leasing Companies (ABEL), the National Association of Credit, Financing and Investment Institutions (ACREFI), the Association of Securities, Exchange and Commodities Distribution Companies (ANCORD), the Brazilian Association of Financial and Capital Markets Entities (ANBIMA) and the Brazilian Federation of Banks (FEBRABAN).
