

Permanent Strategic Objectives

- To represent its associates before the government and entities representing society.
- To engage with authorities and institutions in drafting and enhancing the framework of rules and regulations.
- To embark on initiatives for the continuous improvement of the system's productivity while reducing risk levels.
- To strive for efficient financial intermediation while enhancing its contribution to society, including engaging in efforts that assure the population of increasing access to financial products and services.
- To make society aware of the role and the contribution of the financial system to Brazil's economic, social and sustainable development.
